

HR250 (Helio Standard Rail)

SunModo's HR 250 Rail is a cost-effective rail especially designed for strength and versatility. [Rail Selection Tool on page 23](#)

With two convenient 1/4" channels and a 3/8" slot available, the Helio standard Rail can handle a variety of components such as mounts, rail splices, micro-inverters, and clamps.

Manufactured in 2 stock sizes in clear or black. HR250 is extruded 6005-T5 aluminum with anodized coating for lasting aesthetics.
