

# HR350 (Helio Heavy Rail)

SunModo's HR 350 Rail is known for its heavy duty strength and spanning long distances between mounts.

**Calculated Span Chart on page 22**

With two convenient 1/4" channels and a 3/8" slot available, the Helio Heavy Rail can handle a variety of components such as mounts, rail splices, micro-inverters, and clamps.

Manufactured in 4 stock sizes in clear or black. SunModo Rail is extruded 6005-T5 aluminum with anodized coating for lasting aesthetics.
